Generated by: Bash Log/PCAP Analysis Toolkit (pure Bash, no external report dependencies)

CRITICAL: 332 tampered orders across 66 accounts, estimated loss $2250750.73

Executive Summary

Orders with price mismatch
332
Distinct fraudulent accounts
66
Distinct shipping addresses reused
10
Pre-exploit validation probes
280
Estimated total revenue loss
$2250750.73

Reconnaissance: Price Validation Probing

280 requests probed the cart price validation endpoint with submitted prices below catalog value before the exploit was used at scale, consistent with a scripted search for the vulnerability.

Sample Tampered Orders

```
order=ORD-455242 customer=CUST-37255 item="Samsung 85-inch Neo QLED TV" catalog=3999.99 charged_unit=2.60 q
